and Lubrication Engineers

## Society of Tribologists and Lubrication Engineers

### China Office

11/F, R. 1177, Block A,  
Gateway Plaza, No. 18 Xianguangli  
North Road, East 3rd Ring  
Chaoyang District  
Beijing, 100027 China  
Tel: +86 (10)5923 1096  
[www.stle.org/cn](http://www.stle.org/cn)

### US Office

840 Busse Hwy.  
Park Ridge, IL 60068 - 2376 (USA)  
Tel: (847)825-5536  
Fax: (847)825-1456  
[www.stle.org](http://www.stle.org)

Society of Tribologists  
and Lubrication Engineers

# DISCOVER THE BENEFITS OF JOINING THE SOCIETY OF TRIBOLOGISTS AND LUBRICATION ENGINEERS

## WHO WE ARE

STLE is the premier technical society serving the needs of more than 13,000 individuals and 200 companies and organizations that comprise the tribology & lubrication engineering business sectors. STLE members are experts who research, develop and market the methods and products that make industry more successful and that enhances the well being of people worldwide. Our members are employed by the world's leading corporation and academic institutions and governmental agencies dealing with science and technology. STLE supports these distinguished men and women with a variety of professional education and certification programs.

Lubrication engineering relates to the reduction of friction and wear between relatively moving parts. The term *tribology* describes the study of interacting moving surfaces. Tribology encompasses aspects of physics, chemistry, applied mathematics, metallurgy, materials science, mechanical engineering, chemical engineering and applied mechanics.

Studies estimate that as much as one-third of all usable device-produced energy is lost to friction and wear, costing industry & consumers billions of dollars each year.

## MEMBER BENEFITS

### EDUCATION

STLE offers courses that provide solid technical content and timely perspective on current issues and trends. Many different formats are available:

- Local Courses
- Regional Courses
- Conference Education
- Online Courses
- Webinars

### PUBLICATIONS

- *Tribology & Lubrication Technology* (TLT) - STLE's Monthly Magazine
- *Tribology Transactions Journal*
- *Tribology Letters Journal*

### CERTIFICATION

The value of STLE certification has been proven in the marketplace with increased income and immediate respect and credibility with peers. STLE offers 3 certifications: Certified Lubrication Specialist™ (CLS), Oil Monitoring Analyst™ (OMA), & Certified Metalworking Fluids Specialist™ (CMFS).

## MEMBERSHIP

STLE offers technical education and training, professional resources & career development (all lubricant-industry specific). Membership in STLE confers the seal of authority on your organization and associates you with the community of lubrication experts.

*Professional Networking is the No. 1 benefit cited by STLE members.*

## MEMBERSHIP CATEGORIES

### 1. CORPORATE MEMBERSHIP

Educate your employees, market your business, enhance your industry profile & network with an international audience.

### 2. INDIVIDUAL MEMBERSHIP

Increase your technical skills & knowledge. Get immediate recognition & respect in the field of tribology & lubrication.

### 3. STUDENT MEMBERSHIP

Includes full access to all member services & benefits, but at a reduced price. Membership also provides an opportunity to build a network of mentors.
